Bob Mikesell
Cliff Orley
Lois Rankin
Deb Tice
Tammy Weaver
Glenn Wenger

Classes that **exceed** 15 head may be broken into smaller classes by dividing the class as evenly as possible without splitting animals with the same birth date.

Example 1: If 16 head are entered in Class 4, the class should be broken into two classes of eight; a class of seven and nine; or a class of 10 and six.

Example 2: If 32 head are entered in Class 4, the class should be divided into three classes consisting of two classes with 11 head and one class of 10 head or similar without putting animals with the same birth date in different classes.

Class breaks will be at the discretion of the staff in attendance.

Schedule			
Time	Event	Judge	Location
THURSDAY, OCTOBER 6, 2022			
Noon	Maine-Anjou, followed by MaineTainer and AOB	Jon DeClerck	LA, Ring 1

HEALTH RULES FOR ALL CATTLE – HEALTH CERTIFICATION

HEALTH OF ANIMALS

No animal showing signs of infectious, contagious, or external parasitic disease will be allowed into the Pennsylvania Farm Show Complex & Expo Center. However, exhibitors observing an animal that may present a health hazard to other animals are asked to report the stall location to the show committee. The official show veterinarian, in consultation with Show Management, shall be responsible for determining the health status of all animals. Animals showing evidence of infectious, contagious, or external parasitic diseases shall be removed by their owner from the show grounds at the direction of Show Management.

CERTIFICATE OF VETERINARY INSPECTION

No animal will be allowed into the Pennsylvania Farm Show Complex & Expo Center unless it is accompanied by the required health certification documents. Additionally, the Certificate of Veterinary Inspection must be available for inspection upon request at all times while the animal is on the premises.

HEALTH RULES FOR PENNSYLVANIA EXHIBITION CATTLE

- 1. Certificate of Veterinary Inspection:** Pennsylvania cattle must be accompanied by a Certificate of Veterinary Inspection signed and dated by an accredited veterinarian with an inspection date within the 30 days prior to the date of arrival at the show.
Cattle Identification Requirements: All cattle for exhibition must be identified by an ISO-compliant, 15-digit 840 ear tag. An ISO-Compliant, 15-digit 900 series ear tag that was placed prior to January 1, 2015, will be accepted as official identification.
- 2.** No tuberculosis test is required.
- 3.** No brucellosis test is required.
- 4. NOTE: RABIES VACCINATION WILL BE REQUIRED FOR THE 2022 KILE SHOW.** All breeding cattle and market cattle not consigned for immediate slaughter which are 3 months of age and older at the time of exhibition shall be vaccinated against rabies within 12 months prior to exhibition by an accredited Veterinarian with an approved vaccine and according to label direction. The animal should be listed on a rabies vaccination certificate signed by an accredited Veterinarian which denotes the name of owner or farm, date of vaccination, manufacturer and serial number of the vaccine, the age of the animal at time of vaccination or date of birth, the official ID, and any and all distinguishing markings associated with the animal. The rabies vaccination shall also be denoted on the Certificate of Veterinary Inspection correlated to that animal. Market cattle consigned for immediate slaughter are exempt- however, if vaccinated shall adhere to all label slaughter with-hold times.
- 5. It is highly recommended that all animals entering the show be immunized against IBR, PI3, BVD, and BRSV. It is strongly recommended that at least one vaccination against IBR, PI3, BVD, and BRSV be given after January 1 of this year.**

HEALTH RULES FOR OUT-OF-STATE EXHIBITION CATTLE

- 1. Certificate of Veterinary Inspection:** Out-of-state cattle must be accompanied by a Certificate of Veterinary Inspection signed and dated by an accredited veterinarian with an inspection date within the 30 days prior to the date of arrival at the show. All animals must be free of evidence of infectious and contagious diseases and a statement of this is required on the CVI.
- 2. Vesicular Stomatitis (VS):** This applies to cattle entering Pennsylvania from states that experienced a Vesicular Stomatitis outbreak in the last 12 months. In these cases an accredited veterinarian shall determine whether the animals are free from VS, and animals shall be accompanied by a CVI with the following statement signed by the accredited veterinarian: "All animals identified on this CVI have been examined and found to be free from VS. During the past 90 days, these animals have neither been exposed to VS nor were located within 10 miles of a site where VS has been diagnosed."
- 3. Cattle Identification Requirements:** All cattle for exhibition must be identified by an ISO-compliant, 15-digit 840 ear tag. An ISO-compliant, 15-digit 900 series ear tag that was placed prior to January 1, 2015, will be accepted as official identification.
Tuberculosis Testing Requirements:
 - (a).** No test is required for animals originating from states or zones designated as accredited free by the USDA.
 - (b).** All animals originating from states or zones designated modified accredited advanced by the USDA must be test negative within the 60 days prior to the date of importation. The negative test results and dates of tests must be included on the CVI or the animal must be accompanied by a negative test report (a copy of the original report is acceptable).
 - (c).** All animals originating from states or zones designated modified accredited by the USDA must originate from herds in which all animals 12 months of age and older are test negative within the 12 months prior to the date of importation and the individual animals (all ages) to be imported are also test negative within the 60 days prior to the date of importation and at least 60 days after the negative whole herd test was completed. The negative test results and date of test must be included on the CVI or the animal must be accompanied by a negative test report (a copy of the original test report is acceptable)

4. NOTE: RABIES VACCINATION WILL BE REQUIRED FOR THE 2022 KILE SHOW.

All breeding cattle and market cattle not consigned for immediate slaughter which are 3 months of age and older at the time of exhibition shall be vaccinated against rabies within 12 months prior to exhibition by an accredited Veterinarian with an approved vaccine and according to label direction. The animal should be listed on a rabies vaccination certificate signed by an accredited Veterinarian which denotes the name of owner or farm, date of vaccination, manufacturer and serial number of the vaccine, the age of the animal at time of vaccination or date of birth, the official ID, and any and all distinguishing markings associated with the animal. The rabies vaccination shall also be denoted on the Certificate of Veterinary Inspection correlated to that animal. Market cattle consigned for immediate slaughter are exempt- however, if vaccinated shall adhere to all label slaughter with-hold times.

5. It is highly recommended that all animals entering the show be immunized against IBR, PI3, BVD, and BRSV. It is strongly recommended that at least one vaccination against IBR, PI3, BVD, and BRSV be given after January 1 of this year.

HEALTH RULES FOR SALE CATTLE

- 1. Certificate of Veterinary Inspection:** Sale cattle must be accompanied by a Certificate of Veterinary Inspection signed and dated by an accredited veterinarian with an inspection date on or after September 4, 2020.
- 2. Vesicular Stomatitis (VS):** This applies to cattle entering Pennsylvania from states that experienced a Vesicular Stomatitis outbreak in the last 12 months. In these cases an accredited veterinarian shall determine whether the animals are free from VS, and animals shall be accompanied by a CVI with the following statement signed by the accredited veterinarian: "All animals identified on this CVI have been examined and found to be free from VS. During the past 90 days, these animals have neither been exposed to VS nor were located within 10 miles of a site where VS has been diagnosed."
- 3. Identification:** All cattle for sale must be identified by an ISO-compliant, 15-digit 840 ear tag.
- 4. Tuberculosis Testing Requirements:**
 - (a).** All sale cattle must have tested negative for tuberculosis on or after September 4, 2022. The Certificate of Veterinary Inspection shall include all test results and dates of those tests.
 - (b).** All animals originating from states or zones designated modified accredited advanced by the USDA must be test negative within the 60 days prior to the date of importation. The negative test results and dates of tests must be included on the CVI or the animal must be accompanied by a negative test report (a copy of the original report is acceptable).
 - (c).** All animals originating from states or zones designated modified accredited by the USDA must originate from herds in which all animals 12 months of age and older are test negative within the 12 months prior to the date of importation and the individual animals (all ages) to be imported are also test negative within the 60 days prior to the date of importation and at least 60 days after the negative whole herd test was completed. The negative test results and date of test must be included on the CVI or the animal must be accompanied by a negative test report (a copy of the original test report is acceptable).
- 5. Brucellosis Testing Requirements:** All sale cattle must have tested negative for brucellosis on or after September 4, 2022. The Certificate of Veterinary Inspection shall include all test results and dates of those tests. Steers are exempt from brucellosis testing requirements.
- 6. NOTE: RABIES VACCINATION WILL BE REQUIRED FOR THE 2022 KILE SHOW.**

All breeding cattle and market cattle not consigned for immediate slaughter which are 3 months of age and older at the time of exhibition shall be vaccinated against rabies within 12 months prior to exhibition by an accredited Veterinarian with an approved vaccine and according to label direction. The animal should be listed on a rabies vaccination certificate signed by an accredited Veterinarian which denotes the name of owner or farm, date of vaccination, manufacturer and serial number of the vaccine, the age of the animal at time of vaccination or date of birth, the official ID, and any and all distinguishing markings associated with the animal. The rabies vaccination shall also be denoted on the Certificate of Veterinary Inspection correlated to that animal. Market cattle

consigned for immediate slaughter are exempt- however, if vaccinated shall adhere to all label slaughter with-hold times.

7. **Special Rules:** Special rules may apply in certain states that require a negative test for other diseases within the 30 days of entry into the state. Check with the state of destination.
